

● PUBLIC ATTACK SURFACE MEMO

What an attacker would notice first

A concise owner-facing read for example.com, focused on externally visible risk and practical remediation.

EXPOSURE GRADE

63/100

Moderate exposure profile.

PRIMARY THREAT PATH

TLS and header posture

VERIFICATION

12 real

issues survived validation and deduping.

VERIFIED FINDINGS | HIGH-SEVERITY ITEMS | EXPOSURE SIGNALS | REMEDIATION WINDOW

The report in one *page.*

This summary is intentionally longer to test bounded text wrapping and ensure no overflow occurs

OWNER-FACING SUMMARY

EXECUTIVE READOUT

“Contained but actionable risk profile.”

This summary is intentionally longer to test bounded text wrapping and ensure no overflow occurs.

- 1 Step one with additional words to test wrapping
- 2 Step two also longer to validate fit
- 3 Step three final action

RISK LENS

Exposure quality
Clear and externally visible

Exploit effort
Low to moderate

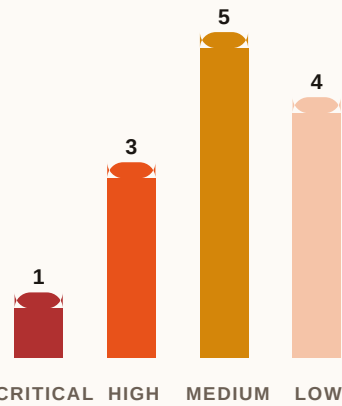

Business posture
Needs owner follow-through and verification

Security picture at a glance.

Graph-first summary of severity, mix, and surface inventory.

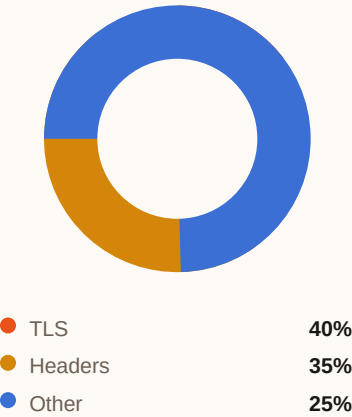

GRAPH-FIRST LAYOUT

FINDINGS BY SEVERITY

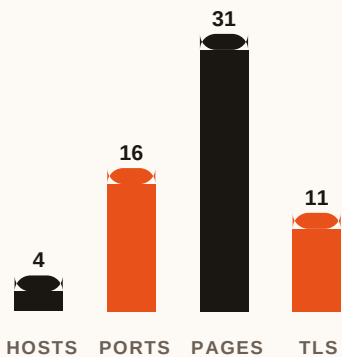

Severity shape shows owner priority at a glance.

FINDING MIX

ATTACK SURFACE INVENTORY

Surface inventory shows breadth versus concentration.

MOST EXPOSED ASSETS

<https://example.com/some/resource> 3

<https://example.com/login> 2

<https://example.com/api> 2

OWNER NOTE

“Keep each chart tied to a decision.”

Prioritize what is externally...

Findings should read like *evidence, not filler.*

Each finding card is intentionally compact and bounded to prevent overflow.

HIGH-CONFIDENCE NARRATIVE

HIGH SEVERITY

Finding with an extremely long title that would previously run past the card edge and cause layo...

Body text for finding that is verbose but should remain bounded inside the card with ellipsis when needed.

CATEGORY · TLS AFFECTED · EXAMPLE.COM:443/THIS/IS/A/RIDICULOUSLY/LO...

OBSERVED EVIDENCE
evidence_line_with_super_long_token_XXXXXXXXXXXXXXXXXXXXXXXXXXXXX...

- 1 Do the first remediation step but with a very long description that must be...
- 2 Second step also verbose and must not overflow
- 3 Third step with more words than available width
